# RETURN OF THE "HOODOED,"

Indianapolis Team Since Its Recent Changes -No Game This Afternoon. Manager "Billy" Harrington and his ball team arrived home from Kansas City yesterday afternoon, at 2:50 o'clock. A game with St. Paul was scheduled for this afternoon, but has been postponed until Monday on account of the condition of the ball park. The ground has been recently sodded

here before the club leaves again. "Whenever the flag is not floating over the court-house there will be no game," says Mr. Harrington. While the club was away six scheduled games were postponed on account of the bad weather, making ten

"What shape is the Indianapolis club in "It is weak in the infield. Before we left here I telegraphed to President Williams, of the League, that the infield would have to be strengthened, but it has not been done. I am satisfied with the work of Lawrence and Berger. Lawrence is an out-fielder, but at Kansas City I played him at short field, and he did splendidly. "I understand," continued Manager Harrington, "that while we were in Omaha a correspondent sent the Journal an interview with me in which I said that Carpenter and Meara would be retired. I said nothing to that effect. No individual player's name was mentioned. What I did say was that the committee on players gave Indianapolis the worst of it." Mr. Harrington says he expects the team to begin winning games very soon. The St. Paul club arrived in this city early this

Yesterday afternoon the News made the statement that another good player had been secured in the person of Pat Wright, and that Meara would be released. Wright has not been signed. The other day President Williams telegraphed to Harrington and asked him if he wanted Wright. Mr. Harrington promptly replied that he did, but the next thing he heard Wright had been signed by Terre Haute. The statement that Tom Ramsey, the left-handed pitcher, is in good form and anxious to play here is also probably a "take." Ramsey's arm is in bad shape. He has been selling lemonade at the Louisville ball park for some time.

The Chinese Exclusion Act Stirs Up Some of the Conference Delegates.

Dr. Buckley Tries to Still the Troubled Waters-Report of Bishop Thoburn on the Work in India and Malaysia.

OMAHA, Neb., May 6.-Bishop Mallalieu presided at the morning session of the Methodist Episcopal General Conference to-day. Rev. Curt, of the Italian mission, officiated in the devotional exercises. Several delegates absent thus far in the conference arrived to-day and answered to roll-call. Dr. Neely, of Philadelphia, presented the conference with a very handsome record of the work of the constitu-

The order of the day was taken up at 10:30, being the report of Bishop Thoburn, of India and Malaysia. The Methodist Church, he said, was teaching and preaching the gospel in India and Malaysia in three different languages. Bishop Thoburn's report gave a detailed account of the work done in three annual conferences, and stated that the work in India was in excellent condition. The working force from America had fallen off some, but the work had continued to grow. The membership had increased nearly thirty thousand during the quadrennium. The Methodist Sundayschools in India now have a membership of over 55,000, an increase of fifteen thousand during the four years past. In the Indian day-schools the church had 29,000 active pupils. The people, by the thousands, were giving up their idols, and the native ministry was rapidly increasing, both in numbers and efficiency. The report warmly commended the work of women in the missions of India. The church has established three publishing houses and is sending out pamphiets and periodicals in nine different languages from its own presses. The report recommended that there be five conferences organized instead of three. The conferences are too large at present, compelling some of the ministers to travel two or three thousand miles to attend them. The report urged the necessity of entarging upon the work. "The day of small things 18 past," said the Bishop. "We must take up the work before us and carry practically the responsibilities laid upon us. We do not know what may happen to morrow, but we do know that the sun never sets in the morning. It is just morning in India. Let us up and be doing while the light lasts."

dress, which was heartily applauded, the conference sang "The Morning Light is Breaking." The conference then requested the committee appointed the previous day to prepare a resolution upon the Chinese exclusion bill to report. Judge Lawrence submitted the report, which stated that the committee had learned that the bill had already been signed by the President, and it was, therefore, too late to take action until the exact wording and condition of the bill had been ascertained. Dr. Swindells offered a minority report to have the question referred to the committee on the state of the church. He feared the passage of the Chinese exclusion bill would jeop ardize the lives and the property of missionaries in China, and he wanted the matter thoroughly considered and disposed of so that the conference might be thoroughly informed as to the actual state of attairs. During the discussion Dr. Leonard denonneed the President and Congress, and here as other foreigners, notably the Irish. He believed this conference should take action in no uncertain tone in relation to it. Dr. Buckley, of New York, asked that the matter be referred to a committee instructed to get a copy of the bill, and make

At the conclusion of Bishop Thoburn's ad-

a clear report on the subject. Dr. Swindeil again made an earnest plea for action on the bill. He argued that unless some action is taken the country would regard the conference as approving the bill. The bill, he said, was the most iniquitous measure ever passed by the Congress of this country.

Dr. Edwards, of Chicago, then took the floor. He said it was a political measure. This bill, he added, is a sop to the steerages now unloading at Battery Park, New York. It was rushed through a Democratic House, passed by our noble Senators and signed by our well-nigh unimpeachable President solely for political effect. He moved to refer it to the committee on mis-

Dr. Payne, of Cincinnati, said the church should show that it was not controlled by any partisan bias and that no political party manages it. He believed the conference should show that it does not approve such political measures, and moved to send the matter to the church committee. He was wildly applauded. Dr. Buckley again secured the floor and

denounced all reference to politics, saying that the man who would try to build up one party or tear down another in this con; ference is nothing but a demagogues Finally the matter was referred to a special committee, consisting of five ministers and four laymen. There was a universal sigh of relief when the question was disposed of. The afternoon was given up to committee work and this plan will be followed to the end of the conference. There will be but one session each day, leaving the afternoon

for committee work. This evening the conference tendered a reception to Dr. W. F. Mouiton, the distinguished delegate from England. The large convention hall was filled with delegates and spectators. Not less than 3,000 people attended the convention. Dr. Moulton was introduced to the conference by Prof. Lewis Fisk, of Detroit, in an eloquent speech of fifteen minutes, in which he enlogized the eminent abilities of the distingushed guest. Dr. Moulton was warmly received by the vast audience and his address, which lasted nearly an hour, was frequently interrupted by applause. He said the vastness of the United States, notwithstanding all that he had read about the country, was a surprise to him. He speke encouragingly of the progress of the great Methodist Church, both in Europe and America. The Methodist faith, he said, was firmly erected in the bed-rock of everlasting truth, and the squalls that were giving some denominations trouble created not a ripple of uneasiness among the Methodists. He predicted great and lasting prosperity for the Methodist denominations so long as they held firm to the faith of the im-
